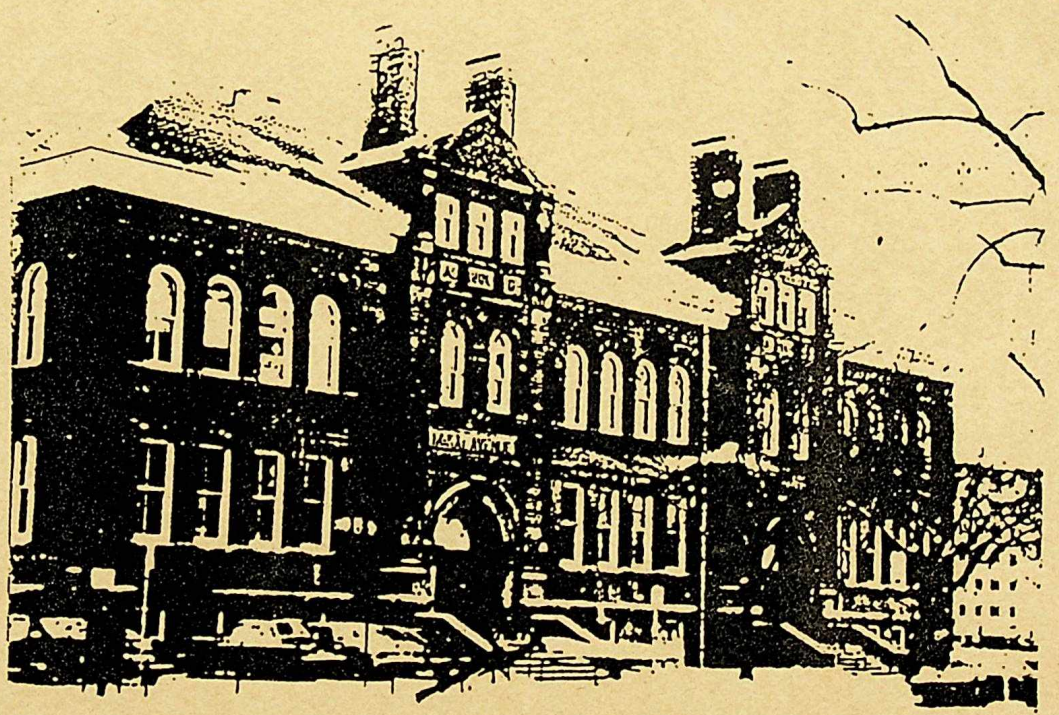
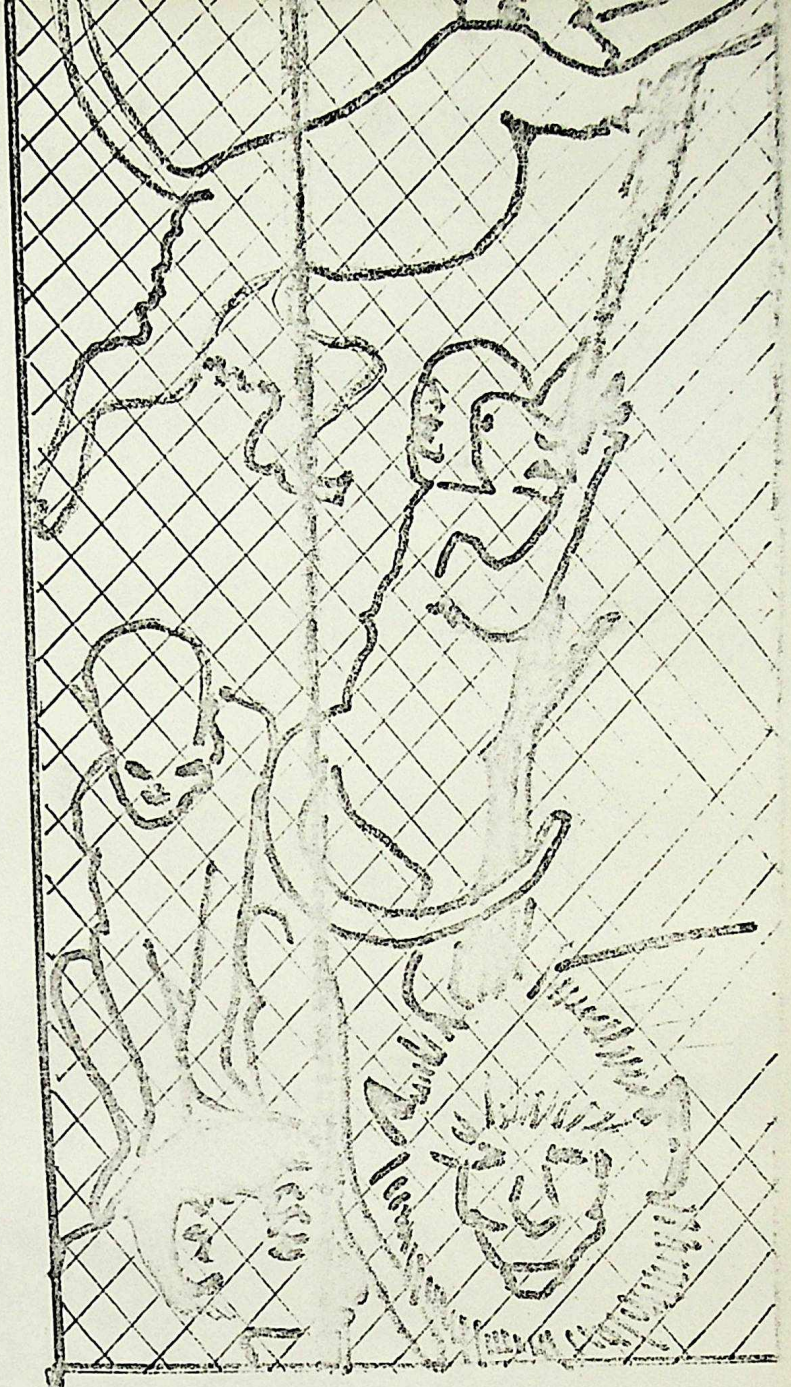
Memories of McKay



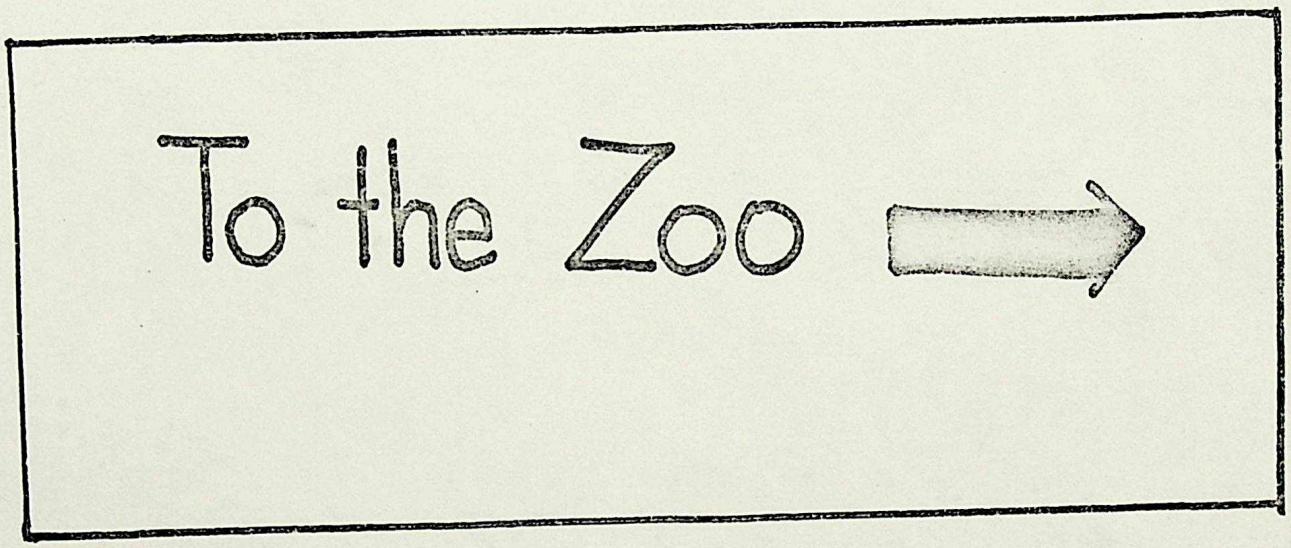
79 - 80

Unbelievable, Simply Unbelievable



McKay Avenue School

Staff Members



Principal
Mr. Shalka

"PRINCIPAL'S MESSAGE"

"Success at McKay
Comes to those who try!"

This message cannot be emphasized too much because it seems to be so true. Thinking back over the years and talking to parents and former students convinces me of that. Students who attend regularly and cooperate in the classroom will be successful in high school and in the world of work.

Working at McKay Avenue School is both interesting and challenging. Many important decisions about students and curriculum have to be made. When such decisions are being made the staff and I keep in mind what is best for the student. However, in many cases we have to keep in mind also what is best for the majority of the students and the school. Hopefully most of our decisions are good ones.

Students are reminded that the entire staff at the school is here to help you get a part of the education you will need for a successful journey through life. Make the best of it!

May I now take the opportunity to thank the students and staff for the cooperation I received throughout the year.

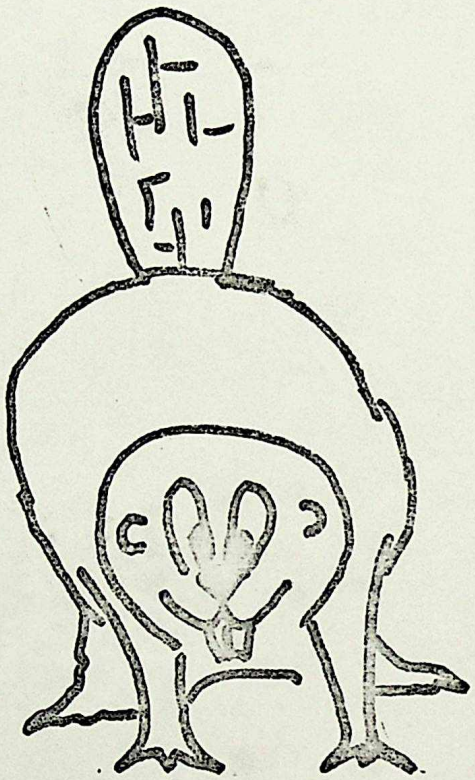
Best wishes and a good summer to all of you!

M. Shalka

Counselor
Mr. Patterson

"Au Revoir'
to all of the students
at McKay Avenue.

My best wishes go with each of you for a happy and carefree summer. I hope that each of you will return to school next year refreshed and keen to start the next phase of your journey toward adulthood and your future careers.



Secretary
Mrs. Osharek

Success at McKay
Comes to those who try!

Mr. M. Shalka

We are here to add what we can to, not get what we can from, life.

Mrs. G. Oshanek

"Civility costs nothing but,
buys everything!"

There is dignity in labour and reward for the hardworking student!

Mr. P. Emokpae

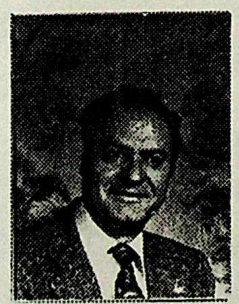
Life accepts no excuses, don't even bother making them!

Mr. H. MacKendrick

Those who do not make mistakes,
do not do any work!!

Mr. H. Kucher

No matter what happens in the future, always remember to let your sense of humor shine through. Laughing makes life a worthwhile endeavor.



Best wishes for your future,

"A DIFFERENT DRUMMER"

If a man does not keep pace with
his companions,

Perhaps it is because he hears
a different drummer.

Let him step to the music he
hears,

However measured or far away.

by

Henry Thoreau

Why is it there is never enough time to do a job right, but usually plenty of time to do it over. A mistake is at least evidence that someone tried to do something.
Your efforts are showing---let's keep up the good work!

PHYSICAL EDUCATION REPORT

****

reported by:

MR. J. MADRO

Physical Education at McKay Avenue meant a long, hard and enduring climb up to the Penthouse. After the climb, Mr. Madro still expected his class to do some work—slave driver. A brief warm-up, which sometimes lasted the whole period, then the students practiced various drills and activities that were appropriate for the season. Volleyball, basketball, badmington, wrestling, gymnastics, floor hockey and weight-lifting are some of the activities that were presented.

For the first time in recent McKay Avenue history, a school wrestling team had been put together. Twenty-four boys competed at the zone finals and eleven of these boys took awards at the city championships. We missed the zone trophy by only two points, we'll surely get it next year. A special acknowledgement goes to Don Schlitt as he won a gold medal at the Alberta Winter Games in Grand Prairie.

This year, every student at McKay had a chance to practice their drowning techniques at the Y.W.C.A. pool. Fortunately or unfortunately, no one was quite able to master the technique of staying underwater indefinitely—I think that I should have brought more weights. The Year Three classes had some instruction in the area of skin diving skills and now they know that skin diving isn't as easy as it looks.

This year the school purchased Cross-Country skis and after learning the basics in the school yard, the students were taken out on various city park trails. If I could have a dime for each wipe-out, I would be a millionaire. I can still hear the screams of students as they followed me around the first steep hill and turn down through the Capilano Park. Most of the trees managed to survive the brutal attack levied by the many student "wipe outs", but I am not sure that all the students did.

Speaking of wipe outs, the downhill ski trip to Jasper was a calamity. Out of the twenty two students that hit the slopes, everyone of them at some time had a chance to taste snow crystals. Fortunately only one person witnessed the greatest wipe-out on the hill—name is withheld by request!

Outdoor activities such as baseball, soccer, football and frisbee were interesting and enjoyable for most. The worst part about going outside was the "stairs" as they usually zapped the energy from even the hardiest of students. The "stairs" will always be my favorite.

The Outdoor Education Program will culminate the year with a trip to Jasper and then the Cadomin Caves. This will be a chance to put what they have learned into practice. Promises to be a super trip. I wonder who will survive the ____"Big Bat Attack!"
